JOIN WildThings NSW

WildThings NSW is an independent organisation of volunteers formed to promote and protect urban wildlife and to enhance local biodiversity in NSW. In addition to its own projects it also supports Ku-ring-gai Council's WildThings program.

WHY JOIN?

- Volunteer your time to get involved with new initiatives such as the Small Bird Habitat and Habitat Tree Project.
- Access to WildThings NSW seminars and events.
- Help promote and protect our wildlife through advocacy, activities, education and social media.
- Support Council's native beehive program, pygmy possum project, and other fauna monitoring initiatives.

NATIVE BEES Council program

GIVE A NATIVE BEE HIVE A HOME IN YOUR BACKYARD

- Native bees (*Tetragonula carbonaria*) are a stingless bee that occur naturally in Sydney.
- Bee populations are being threatened by land clearing and removal of dead trees.
- Bees play an important role in the pollination of native plants, fruits and vegetables.

Tetragonula carbonaria

Actual size: 4mm long

Join over **1200** residents in Ku-ring-gai and beyond who have a beehive. **Free** to Ku-ring-gai residents.
Check out: kmc.nsw.gov.au/nativebees

PYGMY POSSUM Council program

PARTICIPATE IN THE CONSERVATION AND RECOVERY PLAN

The Eastern Pygmy Possum

- Occurs naturally in Ku-ring-gai and is listed as vulnerable to extinction.
- Is a pollinator of native plants, vegetables and fruits.
- Eats mainly nectar and pollen, along with insects and soft fruits.

Join other volunteers in Ku-ring-gai monitoring remnant populations using nest boxes and wildlife motion sensing cameras for feedback to Council.

TREE HABITAT artificial

CREATE HABITAT IN A DEAD TREE WITHOUT COMPROMISING HUMAN SAFETY

- Do you know of a tree that has died, maybe it is suitable for the home of your favourite bird or mammal?
- Every tree that is removed is a loss to wildlife.
- Even dead trees can provide ongoing food and shelter.

Join other residents in Ku-ring-gai in helping to find suitable dead trees that can be utilized by wildlife, if this can be done safely.

ADVOCACY Education, Forums, Activities

- Join us in providing talks and demonstrations on wildlife and bio-diversity activities.
- Help organise events such as forums and practical demonstrations on wildlife activities about the challenges and solutions to protect our wildlife and their habitat
- Help make representations to Councils and Governments on protecting and growing our wildlife, their habitat and other bio-diversity matters

Help develop and participate in various wildlife projects organised by WildThings NSW and Ku-ring-gai Council

SMALL BIRD HABITAT

WELCOME SMALL BIRDS INTO YOUR BACKYARD

- Promote biodiversity in your backyard.
- Grow plants that shelter small birds.
- Grow plants that feed small birds.
- Provide a water source.
- Minimize chemical use.
- Be rewarded with a richer array of wildlife.

Join residents, schools and local groups to plant small bird friendly habitat in suitable areas including backyards, nature strips and school grounds.

TREE HABITAT natural

INSTALL NATURALLY FORMED HOLLOWES WITH ENHANCEMENTS

- Promote biodiversity in your backyard, park or school.
- Watch and learn as the new home is occupied.
- Create a fun experience for your children and friends.
- Join a program to monitor nest box activities.

Join other residents monitoring wildlife in Ku-ring-gai. Here's your chance to help the critters that live amongst us.
